THE PERFECT PARTNERSHIP

MOSSBACK FISH HABITAT®

BASS CONSERVATION

Quickly Attracts Fish

Promotes Periphyton Growth

Easy to Deploy

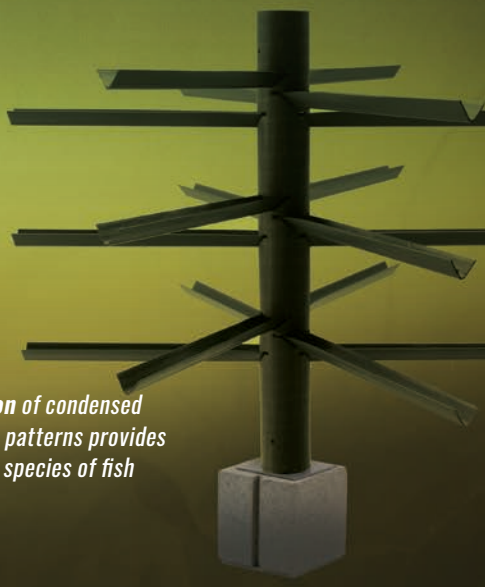

As fisheries across the country continue to age and experience unprecedented levels of fishing pressure from recreational and competitive anglers alike, resource management is more important than ever. Habitat restoration continues to be the foundation of fisheries conservation, and including MossBack Fish Habitat® in your treatment plans *ensures that permanent incremental gains* in overall habitat are being achieved. MossBack's commitment to *safe and environmentally friendly materials* will provide the confidence to know that your structure placement will serve its intended purpose and not be a detriment to your ecosystem. With a *robust product line,* MossBack Fish Habitat has a solution for nearly every need. From nursery and sanctuary habitat for bait fish and fry, to ambush structure for larger sport fish, *MossBack has what you need.*

Trophy Tree
open limb pattern perfect for sport fish

Safe Haven
